VOLUME LIII — UKIAH CITY, MENDOCINO COUNTY, CAL., FRIDAY, FEBRUARY 25, 1921 — NUMBER 21

MANY NEW CASES FILED THIS WEEK

Through Chas. Kasch, W. D. Phillips has filed a suit in the superior court naming J. L. Van Winkle, J. L. Gibson and Sheriff Byrnes as defendants. The sheriff is included in order that an injunction may be had restraining him from selling under execution certain tanbark the ownership of which is involved in the case. The other defendants are assignees of certain men engaged in getting out the tanbark, while the plaintiff is representing the remaining labor claims. The case is a very complicated one. The Redwood Investment Co. sold certain tanbark to W. B. Rowland, who after contracting a considerable expense in taking out the bark, abandoned the business. The present suit is brought to settle the proportionate rights of the laborers who got the bark out to the proceeds resulting from its sale.

Through L. I. Gibson, George A. Lawrence has filed a suit in divorce against Ivy Lawrence, alleging cruelty and abandonment. The plaintiff asks for the custody of the three minor children. The couple was married September 29, 1912.

Through foreign counsel, Francis Smith, of Trinity county, has filed a petition for admission to probate of the will of the late Sylvester Bond, who died at Fort Bragg leaving an estate valued at $2300.

Through L. I. Gibson, M. B. Gibson has filed a suit against E. C. Green, seeking to recover the sums of $1000, $250.00 and $125.00 respectively. The complaint alleges that the two litigants leased the Rodeo valley ranch and pastured cattle thereon and agreed that each should pay his share of the rental of $1000 a year in proportion to the number of cattle he ran on the place. Gibson claims that he paid half of the rental price, whereas he ran but 100 cattle to Green's 200. The $1000 sought in the suit represents the difference between what he paid and what he alleges he should have paid. He alleges also that he sold his right to run hogs on the range to Green and that the latter owes him the sums of $250 and $125 on this account.

Though foreign counsel, Irving H. Brush and George Stockfleth have filed a suit against Henry Hilliard as receiver of the defunct Santa Rosa National Bank. The complaint alleges that Hilliard has claimed in behalf of the swindled depositors of said bank land in Mendocino county comprising some 400-odd acres. The complaint alleges that three-fourths of the property is his and not the property of the bank and that the other one-fourth belongs to Stockfleth. The complaint is brought to quiet title to the land.

Through Piersol & Stone Walter Scott has filed a sealed complaint in divorce against Effie Scott.

Following a decision given by Judge Preston yesterday morning upholding Weldon & Wessels in their petition to dismiss a case they had previously filed to quiet title in the Rachael Howard estate, the same attorneys yesterday placed on file a second complaint more comprehensive than the first, and which gives promise of starting a long and difficult legal battle. The case will involve the validity of mortgages and other instruments affecting all portions of the old Howard homestead, and ere it is finished it will probably include most of Ukiah's legal talent on one side or the other.

Elmer Albertson Submits to Operation

Elmer Albertson, who went to San Francisco last week to receive medical treatment for what was thought to be a case of gall stones, went under the surgeon's knife last Tuesday in a San Francisco hospital. As a result of the operation his trouble was discovered to be intestinal, being caused by a complication of a twisted intestine, adhesions and appendicitis. The operation was highly successful and he expects to be a well man in the future. He will be able to return to Ukiah in about three weeks.

NOONAN MUST GO BY APRIL 20TH

Ben Noonan must relinquish the Van Arsdale ranch by April 20, according to instructions received from the supreme court this week by County Clerk Prather and Sheriff Byrnes. The higher court directs that Prather issue the writ ousting Noonan and that Byrnes carry it out and make his return by that date.

MRS. DAVID VERY LOW

Mrs. J. L. David continues very low at her home in this city. Her sickness took a decided turn for the worse the first of the week, after which she rallied somewhat, but little hope is held for her recovery. Her trouble was caused by a stroke of paralysis.

CHAMBER OF COMMERCE HEARS INTERESTING TALKS

Some hundred-odd citizens of Ukiah met last Saturday evening at the city hall to listen to the program prepared by the Chamber of Commerce.

The talks on both sides of the taxation question were closely listened to. Assemblyman Pettis represented the administration side of the argument, while Peter Crosby, of Oakland, set forth the opposing side.

Attorney C. M. Mannon, of Ukiah, gave a very interesting address on Chamber of Commerce work.

A talk by Harry Speas, speaking in behalf of the Golden Gate Ferry Co., which contemplates the operation of a ferry system across the Golden Gate to supplement the present railroad ferries, aroused much enthusiasm in behalf of the project, which will mean a great deal to the north of bay counties' development.

EXTRA TEACHER PROVIDED FOR PRIMARY DEPARTMENT

The Parent-Teachers' Association met last Friday afternoon at the grammar school, Vice President Mrs. Tracey, presiding. Mrs. L. H. Foster has been chosen president and Mrs. Tadlock secretary.

Mrs. A. L. Gibson is chairman of a committee that will supply an extra teacher in the primary classes to relieve the congestion there. Mrs. Edward Eversole will conduct this opportunity class for the last four months of the term.

The association is very enthusiastic in its work and has aided the school very materially since its work began. It has furnished the school with two pianos and the children are now enjoying music every day. The music for the afternoon was furnished by the girls of the grammar grades. During the cold weather the primary department has been served with hot soup and lunch. The playground committee is preparing apparatus to be set up as soon as the weather warrants.

The association is very anxious to raise the educational spirit of the community and to that end is trying to get the children to interest their parents in joining and attending the meetings regularly. A school banner is being made which will be awarded each meeting to the class having the largest representation of parents present.

1921 License Plates Held Up By Fire

The Motor Vehicle Department announces that they are doing everything possible to take care of applications for 1921 registrations.

They are compelled, however, to slow up due to the fact that they are short of license plates. The fire that recently destroyed the plant at Los Angeles where the auto license plates are manufactured also destroyed one hundred thousand pairs of plates. The factory is now operating again, but it will be some time before they can make up the loss in plates.

The Department had a supply of 400,000 plates but this was exhausted some days ago by the applications for licenses that had been received. Approximately 100,000 applications are being held in the office at Sacramento due to this plate shortage, and those who have applied for and have not received their plates and certificates of registration must be patient.

The Motor Vehicle Department will work night and day to give the best service possible as fast as plates are received from the factory.

ED BROWN LOSES FINE STOCK DOG

Ed Brown of Glen Blair lost his imported Scotch Collie "Jet" this week. The veterinary pronounced the cause of death as ground glass, which is believed to have been the work of a sneak.

The dog was valued at $500 and was well trained in the work of handling stock.

Rumor has it that Ed feels the loss keenly, and has offered a reward of $100 for information leading to the arrest and conviction of the guilty party.

THE WEATHER

Dr. McCowen reports as follows on the weather for the past week: Maximum temperature, 72; minimum, 28; rainfall, 1.18, making a total of 43.59 to date for the season, against 7.37 to date last year.

A. L. O'Neal this week proved up on his homestead lying in the hills southeast of town.

A fire alarm Sunday night brought the fire department out in full force. The occasion was a chimney fire at the Jack Weldon apartment house on North State st. No damage was done.

WILLITS NEWS OF PAST WEEK

WILLITS, February 22.—Hermar Ford and Miss Evelyn Simmerman were married here Saturday night by Rev. Lloyd Smith. The groom has been employed by the local branch of the Standard Oil Co. for several years and is a sterling young man. The bride has also lived here for several years and is well liked by all who know her.

Railroad circles are again agitated over the rumors that the Northwestern Pacific Railroad will put on night trains between San Francisco and Eureka in the early spring—as soon as the weather conditions will warrant them doing so. It is a sure thing but will only be tried as an experiment at first and if the business warrants it the train will become a permanent institution. Both trains will pass at Willits shortly after midnight.

Everett McWaters cut his left hand quite badly while splitting kindling one day last week.

A few days ago Master Vernon Carner, son of Elmer Carner, and some other children were playing with a burro and young Carner fell off and dislocated his left shoulder and also fractured one of the bones.

Our total rainfall up to this morning now amounts to 58.58 inches.

Last week Deputy Sheriff Ward Ries filed complaints before U. S. Commissioner E. M. Whitney against ten parties living in Fort Bragg for blind-pigging. The first of this week all of them were placed under arrest. They are: John Hawkins, Pete Martelli, John Doe, John Elwood, Pete Del Carlo, John Kinney, W. Tyack, Mary Luchesse, A. Mittioni and A. C. Merga.

Bill Bowers was a Santa Rosa visitor last Tuesday to take in the ball game.

PROCEDURE REVERSED IN HOWARD VS. HOWARD CASE

A sort of paradox took place at the county clerk's office last Monday when Attorney Wessels, representing Mack Howard in a suit against W. H. Howard as administrator, asked the county clerk to dismiss the action. Wessels stated as his reason that he did not think his complaint alleged facts sufficient to constitute a cause of action and moreover he thought that it would be a difficult matter to get testimony to back the complaint, as some of the witnesses have died and others have disappeared.

But, "nay, nay," quoth Atty. Chas. Kasch, attorney for the defendants. Kasch was willing and more than willing to go to trial with the case.

"If you dismiss it, we'll file a complaint against you," said Kasch.

But Wessels was obdurate and the action was dismissed after Wessels had consented to pay the defendant's costs.

Former Ukiah Boy Dies in San Francisco

The San Francisco Chronicle of last Monday contained the following article referring to a well known Ukiah boy:

Musicians of San Francisco gathered to pay a last tribute to their fellow worker, Clemens Loyal Baier, noted cornetist, on February 17. The young man, aged 30, died at his home February 14, after a short illness. He is survived by his mother, Mrs. Minnie Baier; his widow, Mrs. Ruth Baier, and his son Kenneth, and one brother, Paul Baier of Denver, Col. Baier was a native son and was brought up in San Francisco. He was a member of the symphony orchestra and played in the local theatres.

Baier was a member of the Masonic order, which organization conducted his funeral.

POOLE SHOWS UP WELL

A considerable crowd of Ukiah people went from this place last Tuesday to witness the baseball game at Santa Rosa given as a memorial benefit for the late Sheriff Petray. Glenn Poole, of Ukiah, caught for Santa Rosa against the Salient Sixes, a team composed of many big league stars and ex-stars.

The local lad won the palm at throwing from home to the second sack and made one of the four hits garnered by Santa Rosa.

The score stood one to two against Santa Rosa.

FINGER PRINT DEPARTMENT GROWING IN IMPORTANCE

For several years, unknown to the public in general, Sheriff Byrnes has had in operation a finger print system. The system is in charge of Clarence Ganter, who has been making a study of the Bertillon system of classification and at the present time has reached a high degree of efficiency. Recently there was dispute as to whether the photograph of a criminal sent here from elsewhere were that of a former inmate of the county jail here. Ganter maintained that it was, against the belief of the other deputies. As the finger print classification accompanied the photograph, Ganter settled the dispute in short order when he referred to his file, finding that he was right.

The system is a big asset in the task of identifying criminals and both Byrnes and Ganter are to be commended for their diligence in maintaining it.

WAYWARD BOYS AGAIN IN TOILS OF JUVENILE COURT

FORT BRAGG, Feb. 23—Ralph Williams and Fred Johnson, the boys who were taken into custody here some time ago on a charge of attempting to wreck the local passenger train by placing a logging chain around the track, were arrested Thursady evening by Deputy Sheriff Ward Reise.

They were caught in the act of selling chickens which they are alleged to have stolen from the C. L. Hensley home to local Chinese.

Reise states the two robbed T. Bacon's home at Littleriver last week. They gained admittance by whittling a hole in the back door. A shotgun and some clothing were among the articles taken.

The two are also credited with breaking into C. A. Curtis' summer home on the Noyo. Here entrance was gained by breaking out a window light. The house was generally ransacked and mussed up. Several lamps were broken, and tennis shoes and rackets were thrown out inthe yard.

They have been placed in the hands of the Juvenile Court at Ukiah.

In view of their past record, it is assumed that they will be committed to a school of correction.

Executes Own Dog Underneath Machine

Joe Cunningham, well known rancher of the valley, killed his own dog by running over it with his automobile last Saturday. Joe had gone to a neighbor's with his car and the dog followed. Another dog ran out and Joe saw his dog run toward the car for protection. Cunningham thought no more of the happening until he had transacted his business and reached home. He then missed his dog and went to look for it. The animal was lying in the road where he had last seen it and on examination he found that it had been run over by the car when it dodged under to get away from the other animal.

Joe says he would not have taken a large sum of money for the dog, which was a very valuable one.

COM. SCORE RISK AT LITTLE SCHOOL

At its meeting last Wednesday evening the fire department listened with interest to the report of a committee which had been appointed at a previous meeting to investigate fire hazards at the Ukiah school buildings.

There has been much agitation of late regarding the risks to the children on account of the absence of fire escapes in the big building. The firemen had been asked to investigate the matter by several prominent local citizens.

As a result of the investigation, it was recommended that the basement be kept clean of papers and trash and that a kindling pile and a wood pile in the basement beneath the stairways be moved to a different location. The committee found that there were three fire extinguishers on each floor and recommended that the teachers as well as the students be drilled in their use. The committee also found that there was a hydrant on each floor and recommended that from 100 to 150 feet of canvass hose be kept in a rack alongside each hydrant constantly and their attachment and use be practised at fire drills. The committee reported that with these instructions followed, there would be practically no risk of injury to any of the children in case of fire, as the stairways are enclosed in plastered walls and separated from each other by the same. Furthermore all the rooms on each floor are connected by doors which would give egress to either stairway should the other be cut off. The eventuality of both stairways being cut off at the same time was deemed a practical impossibility, as a fire would be discovered and the school emptied long before any fire could gain sufficient headway to endanger both stairways.

Conditions in the primary building, however, concerning which strange to say there has been no complaint, were condemned by the committee unequivocally. A fire in the entry way would cut the children off absolutely from escape except by the windows, which are so high that death or serious injury must surely result to anyone jumping from them.

Conditions upstairs would be particularly bad, according to the committee, as the stairways are narrow, steep and crooked and only a few feet apart, so that a fire cutting off egress from one would cut off the other also. Furthermore the doors leading out into the entryway from the class rooms are extremely narrow. The committee recommended that a steel balcony be built around three sides of the building just beneath the windows on each floor and a stairway built from the balconies to the ground at the rear of the building. In case of fire in the rear the front stairways could be used, while, if the fire were in the front of the building the children could escape by way of the windows to the balconies and thence reach the ground at the rear. The committee considered the risk at this building, where the small children are kept, as a very grave one.

The committee also recommended that passageways be left through the fence surrounding the school yard at the site of each of the fire plugs. There are no such passages at this time, and the fire truck is cut off from access to the building except by going around to the regular entrance, necessitating a big loss of time.

What Is a "Fair" Tax Rate?

Suppose you own a shed worth $100.
Suppose you pay $1 in taxes on this shed.
Your tax rate is, clearly, 1 per cent on actual value.
If you pay $1.63 in taxes on your shed, your tax rate is 1.63 per cent on actual value, and this is what State officials say our average tax rate is. To be exact, the rate is given as $1.632 on each $100 of *actual* value.
That's all there is to this taxation question.

What Should Utility Companies Pay?

Now apply the same process to public utility companies, from whom the State collects a tax that is passed along to all citizens. For example, the Seavey Tax Commission's valuation on operative properties of railroads and street railroads is $519,620,000, in 1916. On the same basis used by Mr. Seavey they are worth less today.

If they paid, like the average citizen, $1.63 on each $100, they would have paid the State, in 1920, $8,480,000.

As a matter of fact, they paid in 1920, $10,122,000, or an excess of $1,642,000 over the $1.63 rate. In other words, they are paying, not $1.63 per cent, like anyone else, but 1.94 per cent on the Seavey Tax Commission's valuation of their properties.

Now our State officials demand that the taxes on public utility companies be still further increased.

A Fair Proposition

If these companies are not now paying their fair share of the proper cost of State government, they should do so. If they are paying what they should pay, the tax burden on the public should not be increased. This situation demands facts and fair play.

The Facts Are These:

Today—to use the same example—railways and street railways are paying taxes at the rate of . .	**$1.94**
In 1916 the Seavy Tax Commission estimated the tax paid by railroads and street railroads, as compared with the value of their properties, at . . .	**1.30**
An increase, since 1916, on each $100 on the Seavey valuation of	**$ .64**

or, in percentage, an increase 59 per cent over the 1916 rate.

The average citizen's direct taxes have increased, meanwhile, 35 per cent on property which is like that of the public utilities, in that it has not increased in value.

Our Citizens Must Decide

It is for all citizens to decide whether the indirect taxes they pay through public utility companies shall be again increased when these companies are already paying at the rate of 59 per cent more on the Seavey valuation than they paid in 1916.

Be not deceived. This is your affair. The money collected through public utilities is charged back to you in the cost of food, clothes, rent, light, heat, interest rates and transportation—in everything you buy.

No Ad Valorem Tax

Remember:
No revenue deficit exists.
No ad valorem tax is needed.
Ask your legislator to demand that the State live within its income, or show WHY.

MENDOCINO NOTES

(Mendocino Beacon)

The dullness of the lumber market was brought home by the lack of shipments made during the month of February. The steamer Arctic which arrived the fore part of this week was the first steamer to take out a cargo of lumber this week. She sailed Thursday for the city with 300,000 feet of lumber, 200,000 feet which was consigned to the Southern Pacific Company.

Tom Johnson, well-known tie-contractor and resident of Keene Summit, has disposed of his half-interest in his property there, the former Dutch Henry place, to his partner, Charles Smith, and accompanied by his wife and youngest son expects to leave about the first of May for Finland for a visit at his old home.

Miss Hazel Packard, youngest daughter of Mrs. Hannah Packard, was united in marriage on Tuesday night at the home of her mother in San Francisco to Earl M. Dennison of that city. The young lady is a native of Mendocino and resided here until about two years ago when she removed with her mother to Santa Rosa, and later went to San Francisco.

The Caspar Lumber Company made a six-cent cut in the wages of employees the first of the week, effective on and after the 16th of this month.

In the woods ten hours will hereafter constitute a day, instead of nine hours. The Caspar cut is one cent less than that made by the other companies.

John Pacheco passed away at his home in the eastern part of Mendocino Wednesday evening after an illness of several weeks' duration, during which he had been gradually sinking, and a period of feeble health that covered eight or ten years.

C. B. Mallory, since the freshet which brought down the big log jam on the Southfork, has discontinued logging operations near the Boom in tidewater and transferred his crew to his camp on the upper river.

SCHOOL NEWS

Mr. and Mrs. J. H. Hinkle made a trip to Ukiah on Tuesday. Mrs. Hinkle, who seemed to be threatened with an attack of appendicitis, went to consult a physician. Her pupils and friends hope and trust that the danger will soon pass.

The grammar school which is taught by Miss Henrietta Woods and Miss Alma Eddie, gave, on Washington's birthday, an interesting patriotic program consisting of recitations, dialogues, vocal and instrumental music, and an address by P. B. Westerman, principal of the high school. Many of the parents attended the exercises.

The student body of the Potter Valley High School, of which Henry Gibson is president, assisted by the high school and grammar school teachers, will give a dance in the auditorium of the school building on Friday, March 4th., as a benefit for the school. Miss Alma Eddie, member of the committee in charge of arrangements, announces that the very best music obtainable in the county will be provided, a delicious supper of sandwiches, cake and coffee will be served, and that the public is very cordially invited to attend. All previous affairs given for the benefit or the school have been very generously supported, and the presence of a very large crowd is anticipated.

On February 19th the Potter valley high school gave a large reception in the auditorium of the school building, in honor of Mr. and Mrs. Norman Franklin Woolley, whose marriage was solemnized in Ukiah on January 26, 1921, the ceremony being performed by Rev. Elbert Holland, pastor of the Christian Church.

The bride is the charming and talented daughter of Mr. and Mrs. O. W. Busch of this valley. Her kind and happy disposition, her generosity and hospitality and her artistic talents have won for her the love and admiration of all who know her and made her a great favorite and leader in local society. The groom is the son of Mr. and Mrs. J. M. Woolley of Redwood valley and is well known and highly respected by a wide circle of friends in both of the neighboring valleys.

Mrs. Woolley is vice-president of the student body of the local high school, and very popular in school circles.

The large auditorium of the fine new school building was beautifully decorated in the high school colors of purple and gold. Brilliant streamers of crepe paper in these gorgeous hues were suspended between the chandliers and the walls of the room, and color scheme was further developed by the use of masses of long stemed purple violets and golden jonquils.

Excellent music was furnished by the Misses Ruth Busch and Carletta Englemann as pianists, and A. S. Crafts as drummer. Dancing was enjoyed until 11:30 p. m., when delicious refreshments were served. The wedding cake, a rich fruit cake, was baked by Miss Ruth Busch, while the bride's cake was a demonstration of the culinary skill and artistic talent of the bride's mother, Mrs. O. W. Busch. This large white cake was covered with white frosting and strewn with the large creamy petals of the bride's rose made of powdered sugar. The perfect form and natural appearance of the rose petals could be produced only by the deft touch of the artist and sculptor and received much attention and admiration.

The popular young couple received many beautiful, useful and valuable presents including fine linen, hand-painted china, cut glass, silver and aluminum ware. Many messages of love and beautiful boquets of cut flowers were received from relatives and friends unable to be present. The happy pair were showered with congratulations and good wishes. One school teacher present announced that her wishes for their future happiness and prosperity harmonized with the color of the beautiful floral decorations. She said that the purple and violets are royal colors and she hoped the bride might ever reign queen of her husband's heart and always make him happy as a king, and that the golden glow of the jonquils would be reflected in their lives and bring them sufficient material things and also the richest blessings of the heart.

Among the young couple's near relatives who were present were: Mr. and Mrs. O. W. Busch, Miss Ruth Busch, Miss Frances Ann Cole, Mr. and Mrs. J. M. Woolley, Mr. and Mrs. G. H. Busch, George H. Busch, Jr., Mrs. J. J. Dashiell, Howard Dashiell and Leona Dashiell. All of the teachers including P. B. Westerman, Mrs. J. H. Hinkle, Miss Henrietta Woods and Miss Alma Eddie were in attendance. The board of school trustees were represented by L. R. Goodrich and O. R. Hughes, both of whom were accompanied by their families. More than a hundred other relatives and friends were also present.

Red Men and Pocahontas Lodges Have Jolly Time Tuesday

Washington's birthday was the occasion for a big celebration by the Red Men and Pocahontas lodges of this city. Founded as it is on the early colonial history of this country, the Red Men's lodge always celebrates Washington's birthday as its particular holiday.

Last Tuesday evening's festivities were initiated with a cafeteria supper served cafeteria style at 6:30. The menu consisted of hot chicken pie, mashed potatoes, gravy and buns, shrimp salad, lemon and cherry pie and coffee. The tables were set in the lodge room and were decorated with carnations and violets. The hall was profusely decorated with acacia blossoms and crepe paper.

Progressive whist was played until ten o'clock, Mrs. A. Atkinson winning the prize. Dancing was then in order, Miss Ardis Prather presiding at the piano. The most enjoyable part of the evening was when, with Mrs. Kate Prather at the piano and Will Orr and Mr. Hubbard on the violins, the quadrille and polka of years ago were danced by the older contingent.

The Pocahontas planned the party with the financial assistance of the Red Men. The committee consisted of Mesdames Caroline Smith, chairman, M. Miner, Lorena Rains, Alice McCorquodale, Madeline Nelson and Lena Elder.

Washington's Birthday Furnishes Motif

Washington's birthday and colonial days furnished the motif for a very enjoyable function last Tuesday afternoon when the ladies of the Presbyterian Society were entertained at the home of Mrs. P. J. Boring. The affair was a colonial tea.

The reception committee, consisting of Mrs. J. L. Brown, Mrs. J. L. Davis, Mrs. H. N. Deering and Mrs. Breckenridge, were in colonial costume. The Boring home was tastefully decorated with daffodils and acacia blossoms. The program consisted of a scripture reading, the parable of the ten talents, by Miss Esther Redwine, vocal solos by Miss Gladys Anker and Mrs. MacDonald, and a reading by Miss Grace Reid. Delicious refreshments were served.

Several months ago each member of the society was given ten cents as an initial investment and each was to earn as much as possible on that small capital. A great deal of entertainment and fun was had when the various ladies related their experiences in increasing this capital. Mrs. J. L. Brown, Mrs. Jessie Redwine and Mrs. G. W. Stout earned $10 each and the total amounted to $100.

FORD
—The Universal Car—

! ANNOUNCEMENT !

Mr. Edsel B. Ford, President of the Ford Motor Company, gives out the following statement:—

"The price of the FORDSON Tractor has been reduced from $910 to $745, effective immediately, f. o. b. Ukiah.

THIS price change has been made possible through lower costs of materials and the fact that we are now located in our new Tractor Plant, with greatly increased economic facilities in immediate connection with our foundry and machine shops and large blast furnaces, where iron is poured directly from the ore, giving us maximum efficiency with the power to reduce the cost of production, and down comes the price in line with our policy to market our products at the lowest possible figure without in any way affecting our high standard of quality.

We are particularly pleased in being able to bring about this big reduction in price at this time, because the farmer needs all the help we can give him, and this big cut in price will be the means of placing a valuable power unit within the reach of practically every one of them, not to mention industrial and commercial concerns, which likewise have benefitted through its use and are already realizing, to a much greater extent, its value as a power and hauling unit. But particularly has the FORDSON Tractor proved a most valuable factor in the saving of farm labor, at the same time increasing the per acre crop yield, as well as making possible a utilization of previously uncultivated land, to say nothing of removing no end of drudgery.

There is no question that the use of machine power on the farm is the greatest advancement made in the development of agriculture, not only in the money saving and money making results, as well as raising the standards of living on the farm to a much higher level, but because of its proved value in making every type of land more productive, and consequently our desire to place the FORDSON within the reach of all.

There is No Change in Present Ford Car and Truck Prices

which are already at the lowest possible figure and now with rock bottom reached on the tractor price, a further reduction in price of either Car, Truck or Tractor is out of the question; in fact, the big price cuts have been made in anticipation of continuous maximum production and increases may be necessary before long, if a large volume of new business is not obtained. Therefore, present prices of Ford products cannot be guaranteed against possible increases."

Ask for the book, "The Fordson at Work," which will be supplied free of cost. Let us demonstrate the value of the Fordson on your farm, in your factory, lumber yard, or in any general hauling or power work you have to do, and let us have your order for a FORDSON.
